Amar Powale

Senior SDE (Java FullStack Developer)

📞 9284715755   @ amarpowale96@gmail.com   🔗 www.linkedin.com/in/amar-powale   📍 Pune, India

SUMMARY

Experienced Java Full Stack Developer with 4+ years of expertise in designing, developing, and implementing software applications using Java/J2EE technologies, including Spring Boot and Microservices. Demonstrated success in optimizing application performance, reducing bugs, and enhancing overall code quality, leading to increased user engagement. Proficient in developing RESTful web services, working with front-end applications using Angular, conducting unit testing, and automating deployment workflows with Jenkins.

EXPERIENCE

Senior SDE

Maveric Systems Limited

📅 20/11/2023 - Present   📍 Pune, India

- Designed Microservices and implemented APIs for CRUD operations to manage employee profiles, including skills, endorsements, and requests, ensuring seamless database integration.
- Developed advanced algorithms for employee comparision and filtering to optimize project allocation based on skills and availability.
- Built endpoints and notification services for managing endorsement requests, notifying employees and managers of updates in real time using Apache Kafka.
- Utilized Apache POI to extract skills, education, and work experience from resumes, integrating this process with backend services.
- Created intuitive user interfaces using Angular for skill clustering, advances filtering, and management, enabling efficient resource allocation and skill operations.
- Implemented file upload functionality for resume submissions, displaying extracted details such as skills, education, work experience and manipulation using Java 8.
- Ensured data validation, verification, and integrity throughout the application, maintaining high quality standards across all processes.

System Engineer

Tata Consultancy Services

📅 23/01/2020 - 03/04/2023   📍 Pune, India

- Designed and developed scalable applications by gathering requirements, creating project components, and implementing N-tier architecture with Microservices and Cloud Integration.
- Built responsive front-end interfaces using Angular, Typescript, HTML, and CSS, while enabling asynchronous communication via Angular HTTP client.
- Developed robust persistence layers with Spring ORM and automated daily operations by creating and managing batch jobs.
- Coded modules, including Entities, Services, and Controllers, and implemented logging to enhance project traceability and debugging capabilities.
- Ensured code quality through reviews with SonarQube to maintain code quality and adherence to best practices.
- Performed unit ands integration testing to ensure functionality and reliability of application components.
- Supported SIT/UAT defect resolution and collaborated in Agile practices, including backlog grooming and spring planning, to drive successful project delivery.
- Participated in Agile ceremonies such as backlog grooming, spring planning, and daily stand-ups to align development efforts with business goals.

TECHNOLOGIES / TOOLS

Java 8   SpringBoot   Microservices   HTML   CSS   TypeScript   Angular   Thymeleaf   MySQL   PostgreSQL   Hibernate   MongoDB   JIRA   Git   Jenkins   Apache Kafka   Docker   Kubernetes   AWS   Junit   Mockito   JMeter   SonarQube   STS   IntelliJ   Maven   Swagger   Postman

STRENGTHS

Collaboration
Collaborated with cross-functional teams to deliver innovative solutions that meet clients' needs.

Adaptability
Adapted quickly to new technologies and tools, integrating them effectively to enhance development efficiency in a fast-paced environment.

Attention to Details
Delivered high-quality, user-focused solutions by analyzing requirements and validating implementations against business objectives.

EDUCATION

Bachelor of Engineering

Savitribai Phule Pune University

📅 2014 - 2018   📍 Pune, India
